- Up to 25 pages out of paper reception
- Up to 200 sheets paper capacity

# FAX-1020e

At the heart of this combined telephone/fax machine/copier is a professional plain paper fax facility with advanced business functions. It is ideal for the home office or small office that requires both facilities but has restricted space. Why have three separate machines when you can have it in one.

With the aid of Brother's navigation keys, it is both quick and easy to search through and select any of the FAX-1020e's many advanced business functions. The machine also boasts the ability to automatically redial the intended recipient, should the number be busy.

To ensure the ultimate in versatility and user-friendliness, the FAX-1020e is able to forward received and stored faxes to another fax machine. It also offers a number of useful copy functions, such as the ability to automatically sort multiple copies, as well as the option to reduce or enlarge documents from 50% to 150%.

## General

Engine	Thermal transfer
Input/Output Width	Up to 216mm
